We have extended our support towards Design/As- Built documentation by utilizing tools such as **Smart Plant Instrumentation / Smart Plant 3D /SPEL / SPPID / Auto CAD / MicroStation** adhering to the International and Client Standards as well as Database upgradation and Merging. Piping related activities such as Pipe wall thickness calculation, Isometric drawing preparation, fabrication and welding of pipes and fittings, performing hydrotest, de-watering and preservation of pipes and vessels. We have a team dedicated for carrying out IT/Telecom/Networking projects all over kingdom.

Our experience in the business makes us able and fully equipped to understand your requirements. We fulfill the needs of several clients every day by matching them with industries most talented professionals. Through our comprehensive services, we provide stability and strength to your business, allowing you to focus on your core competencies.

**Superiority  
is in our Soul.**

## Company Profile

# CEO Message

**Delta Gulf Contracting Est** was formed in 2010 by a team of young and enthusiastic professionals. We are pleased to introduce our company. We have been established with an excellent track record for the best customer satisfaction. We have never compromised on the quality and the service we provide to our customers. We believe in keeping the customers happy and providing them with the needful at a very competent price. We have an excellent staff who will guide you with their best Ideas by keeping in constant touch with your company and informing about the market trend. Our well qualified and experienced team aims at making smooth Client services and achieve aggressive schedules.

We are committed to delight customers by providing energy management and sustainable building design solutions and build a sustainable future to conserve energy and make this world a more sustainable place meeting present needs and also needs of the future generations.

#### **This we shall achieve by :**

- Providing good quality products / acceptable service with timely delivery and operational excellence.
- Ensuring continual improvement in our processes & operations.
- Providing growth oriented work environment to our employees.
- Complying with applicable legal & statutory requirements.
- Establishing & maintaining symbiotic relationship with stake holders.

We were able to execute several projects even during the pandemic adhering to all the precautionary measures. We took up the challenge in executing several projects and completed within schedule.

## Mohammed Ali Al Waheeb.

CEO

### ● Mission Statement

To become a market leader in providing Skilled Human Resources solutions and build a sustainable future. We believe that Sustainability is a way of life and not limited to buildings and infrastructure design. Sustainability should be part of every aspect of our lives.

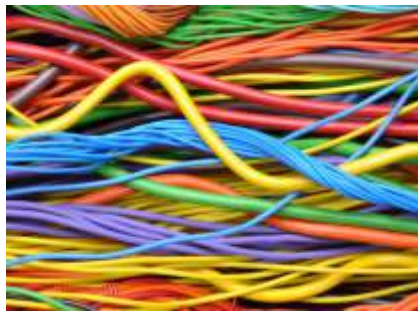

### ● Type and Nature of Business

- Electrical and Instrumentation Projects
- SPI/SP3D/SPPID/SPEL Design and As-Built preparation  
IT/Telecom/Networking Services
- Piping related projects
- Quality Inspection Services
- Supply of qualified Manpower (Civil/Structural/Mechanical/Piping/E&I)
- Supply of Heavy Equipment Rental
- Industrial Material Supplies
- Transportation Services across the Kingdom and GCC.

## Electrical and Instrumentation

We are a highly committed Electrical & Instrumentation company that provides world class electrical and Instrument work to all our clients regardless of their size or financial background. We are experts in all Electrical Installations on new processing plants, domestic dwellings, Industrial Instrumentation, and maintenance of existing plants. We do all conveyor belt electrical installations at any location from mines to small plants. We are specialized in all kinds of plant commissioning. We provide comprehensive electrical installations from cable pulling to terminations, loop check and commission support.

We have a highly qualified team of Engineers and Technicians who have been with us since its inception, this retention of our experienced core team ensures that our values on customer satisfaction and professionalism remain of the highest grade. At Delta Support Services we believe that a happy team always translates to a happy CLIENT.

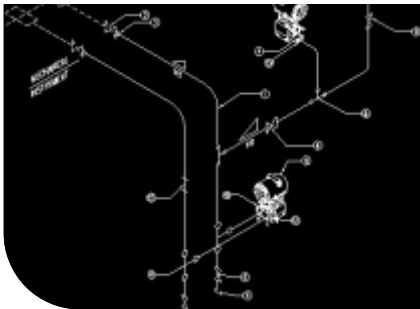

## Design and Documentation

To cater Design package requirements for our clients from Preliminary Design to Critical Design including FEED study and Detail Engineering. Experienced in carrying out detailed site survey to study the condition of existing site based on Scope of work. Documentation includes Generating block diagrams, cable schedule, IO list, Specification /Datasheet, Material Approval Requests, Technical Evaluation, Material Take off list preparation, Cabinet General/Internal Arrangement drawings, Wiring diagrams, Loop drawings, Impulse and Air-line hookup, P&ID markup, Location Layout adhering to International Standards and in compliance with the latest client standard.

## Drafting (AutoCAD/MicroStation)

Our Cad pool is well experienced to undertake all kinds of drafting work from all discipline ranging from Instrumentation, Piping, Electrical, Structural and Civil. Our team is well versed with the drafting standards of various clients whether it be Saudi Aramco, Sabic, Satorp, Sasref, Gulf Farabi, Sadara.

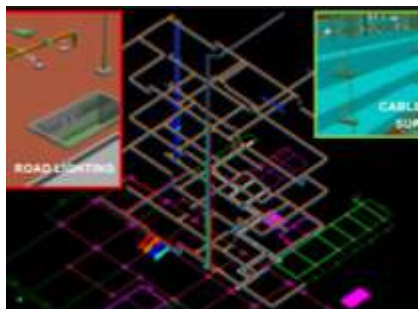

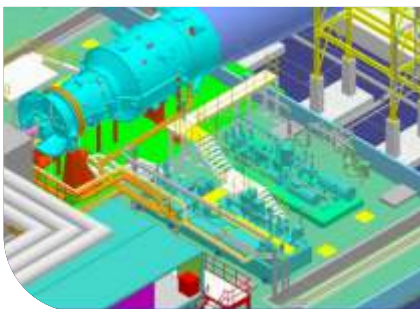

## SPI/SP3D/SPPID & SPEL

We have a dedicated team specialized in Smart Plant Software to provide solution to our customer from Database Merging, Database Upgradation, IFC and As-built package preparation based on Client and End user requirement within the stipulated time. We have Admin level Engineers to solve any backend issues with in-depth SQL and Oracle knowledge. Our User Level Engineers are capable for creation and update of Smart plant deliverables.

### List of Major SPI Projects :

- NPCC Database Upgrade Project – Upgraded 9 databases.
- NPCC IFC Package Update – Completed more than 13000 deliverables.
- Wasit Gas Plant As-Built Update – Completed more than 5000 deliverables.
- Shaybah NGL Plant As-Built Update – Completed more than 6000 deliverables.
- NAGPD Database Merging – On-going Project. Completed 75%.

## IT and Networking

At Delta Gulf Contracting Est, IT Consultants work and focus on maximizing client business opportunities and operational efficiencies through IT Solutions.

Information connectivity plays a key role in today's business infrastructures and the success of this is dependent on the efficiency of the network. Network downtime and performance degradation impacts business revenue, and your bottom line, through lost of productivity. An optimized network needs to be well designed and requires maintenance to manage available facilities.

Delta Gulf Contracting Est unifies network hardware and software into a reliable, secure network infrastructure. Delta Gulf Contracting Est has extensive experience implementing networking projects at all levels, from local area networks in a small office to a massive office running into many floors of a building.

Delta Gulf Contracting Est professionals are skilled in LAN/WAN networking, systems integration and business application integration, and can provide solutions for all major operating systems and hardware platforms. Delta Gulf Contracting Est engineering solutions and services help clients successfully manage their networks, customers and suppliers.

The expertise of Delta Gulf Contracting Est has assisted many clients investing in workstations and server resources. Creative Solutions experts will help the client get the most out of their equipment and minimize the operational costs of managing their systems.

With the more widespread adoption of broadband Internet access, it is now more feasible than ever for employees to work remotely. At the same time, business needs have changed, and many businesses are looking for secure and reliable remote access solutions to allow employees to be more effective. Choosing the best remote access method for your company is an area where Delta Gulf Contracting Est can have an immediate positive effect on your bottom line.

## Human Resources & Hire Services

We supply manpower and labor services to various industries. Our manpower supply services always help in recruiting the right candidates for the prescribed jobs in various companies. This helps in saving time, energy and our client's money. Our manpower and labor supply services cater to the requirements of industries such as Engineering, Automobile and Pharmaceutical. Before we provide manpower or labor to our customer, we check the candidate's skills and ability.

## Heavy Equipment Rental

Delta Gulf Contracting Est rental fleet include some of the latest models from the leading manufactures, all kept in best possible conditions through a meticulous maintenance program. To meet dynamic requirements and with reliability in mind, our equipment can be proved at competitive rental rates and Daily/Weekly/Monthly intervals. Our priority is to solve our clients Business requirements with the exact rental equipment and support services they need, where they need it, when they need it, we have the following fleet of heavy & light equipment which are all certified to SABIC and SAUDI ARAMCO standards. We have a wide range of crane fleets capability varying from **25tons to 500tons** including **Tadano, Kato, P&H & EXG**.

## Industrial Material Supply

**DELTA GULF CONTRACTING EST** Material supply division to supplying top brand products at extremely competitive prices backed up with impeccable customer service. Our material supply division is to close the loop between us and our client by supporting the outsourcing of your material requirements. We facilitate in issuing the materials to your client in conjunction with the placement of a purchase order (PO) to the supplier for both planned and unplanned

## Fencing work

A formidable barrier and effective deterrent to intruders. Often specified where there is a need for high security and a perfect solution for factories and commercial sites. Depending on the job, we can offer several different styles of security fencing ranging from light industrial through to heavy industrial applications. We can offer a full range of matching gates, including heavy duty sliding gates up to 10 meters long. Gates can be remote controlled or manually operated.

SAUDI ARAMCO VENDOR REGISTRATION (090121f38196b92d) - ACCOUNT SECURITY  
**SAUDI ARAMCO VENDOR REGISTRATION**

**Saudi Aramco Electronic Contracting Network (ECN)**

Thu 4/12/2018 12:45 AM

YOUR SAUDI ARAMCO VENDOR  
REGISTRATION NUMBER: 10062321

**MUHAMMAD AII AL-WAHEEB GENERAL CONTRACTING ESTABLISHMENT**

Gentlemen :

Thank you for your interest in providing contract services to Saudi Aramco. Your new contractor registration application has been approved and your Company has been assigned the following Vendor Number:

**YOUR ASSIGNED SAUDI ARAMCO VENDOR NUMBER: 10062321**

(Please note this Vendor Number for your future reference.)

A unique username and temporary password will be sent to each of your Company's Designated Contacts (as specified in your registration application) to enable them to access Saudi Aramco's Electronic Contracting Network (ECN). ECN is accessible through the Saudi Aramco Portal at <http://jvendor.aramco.com>.

It is important to note that this registration merely provides Saudi Aramco with current contact and other basic information about your Company. This registration is different from contractor Qualification which is Performed separately, in connection with a Specific contract or group- of similar contracts. The method Saudi Aramco uses to prequalify and select bidders for each contract depends on the contract's complexity and urgency in addition to the number of potentially qualified contractors for the required work. The most important source of contractor information that Saudi Aramco will heavily rely on is each registered contractor's Contractor Profile in ECN, which each contractor can update themselves online and at any time.

Therefore, the most important step for your Company to take immediately after receiving your ECN usernames and passwords is to promptly complete the remaining sections of your Contractor Profile in ECN. These sections include:

- Introduction
- Work Experience
- Certificates
- Human Resources Branches
- Financial Information
- Parent Company | Affiliates | Subsidiaries

We appreciate your interest in doing business with Saudi Aramco and wish you the best of success. Sincerely yours,

**Manager**

Saudi Aramco Contracting Department

# Quality Policy

We are committed to delight customers by providing energy management and sustainable building design solutions and build a sustainable future to conserve energy and make this world a more sustainable place meeting present needs and also needs of the future generations.

**This we shall achieve by:**

- Providing good quality products / acceptable service with timely delivery and operational excellence.
- Ensuring continual improvement in our processes & operations.
- Providing growth oriented work environment to our employees.
- Complying with applicable legal & statutory requirements.
- Establishing & maintaining symbiotic relationship with stake holders.

# HEALTH, SAFETY & ENVIRONMENT POLICY

Delta Gulf Contracting Est believe that the Health, Safety and Welfare of its employees and others affected by its operations is a priority and must have equal importance to the quality, cost, services and production.

Delta Gulf Contracting Est.'s key objectives are to prevent accidents and injuries, minimize loss and provide a safe workplace.

Every employee or subcontractor working for or under the supervision of Delta Gulf Contracting Est has the authority and responsibility to stop work for conditions that threaten imminent danger.

Delta Gulf Contracting Est. will apply innovative efforts to continually improve the effectiveness of HSEMS and Delta Gulf Contracting Est's Management is particularly committed for:
